

**COUNTERSINKS AND PLUG CUTTERS**

To assist our customers that are building or restoring boats Bristol Bronze is pleased to be able to offer the **FULLER** line of countersinks and plug cutters.

Countersinks are equipped with taper point drills and stop collars as shown. The plug cutters are the non-ejecting type. The countersinks and plug cutters are sold in sets.

No. 1 set of Countersinks - in wood holder - includes No. C5, C6, C7, C8, C10, and C12 for #5 thru # 12 wood screws.

No 1 set of Countersinks - in wood holder - includes 3/8", 7/16", and 1/2" plug cutters all with 3/8" shanks.

**HERRESHOFF PATTERN MANGANESE BRONZE ANCHORS**

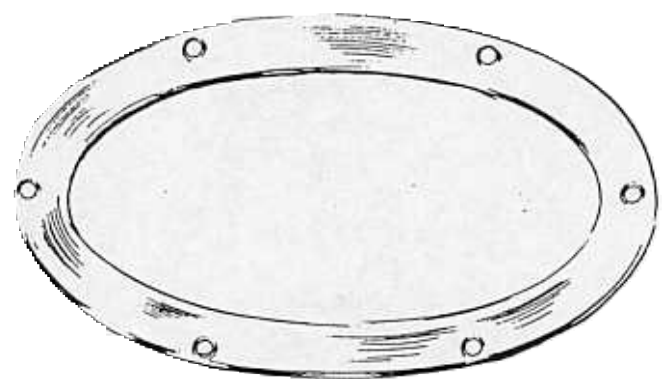

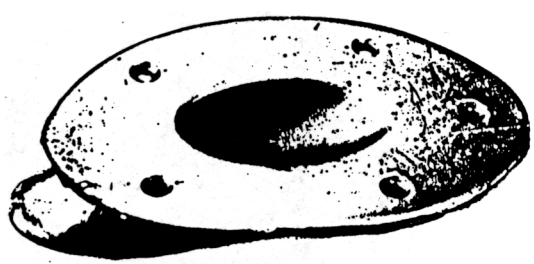

The design of these anchors was begun by Nat Herreshoff's father Charles. Perfected by Capt. Nat in a series of oxen drawn beach tests where the anchor could be observed as it dug itself in, these anchors are unequaled pound for pound for their holding power. The Herreshoff anchor can be relied upon to hold in weeds, sand, mud or rocky bottoms.

**BB3896 CURVED HANDLE**

This very graceful 6" long handle has a wide variety of uses. On smaller sail boats it is used at the bow to lift the boat for placing it on a trailer. It is also used as a hand hold around companion ways and ladders.

STOCK #	ANCHOR SIZE
HM0044	5 Pound
HM0020	7½ Pound
HM0071	25 Pound

**PORT GLASS RETAINER**

Various sizes of port glass retainers are manufactured. All have slightly different shapes (HM0023 is illustrated above).

Part #	Outside Dia.	Inside Dia.
